

# Asthma / Bronchitis Cured With Homeopathic Medicines

**A**sthma is seen at all ages of life, from earliest infancy up to old age. Asthma is an irritation of the pulmonary branch of the pneumogastic nerves, the irritation being accompanied by a spasm in the respiration. There is feeling of tightness in the chest, cough and gasping for breath. The attack usually sets in the later part of the night, in the evening or early in the morning. Dry Cough or lots of mucus in the chest, sneezing followed by running nose, wheezing in chest, bronchitis or bronco-pneumonia, history of psora (suppressed skin eruptions), sycoosis (suppressed gonorrhoea), symptoms of the latent syphilis in the family are among the fundamental causes of the asthma.

According to homeopathy, **we need two causes to produce an asthmatic attack: an irritation, transmitted over a centrifugal path, and a special natural tendency in the so called asthmatic subjects. One of these two causes alone does not suffice to bring on an attack. An attack of asthma is always a consequence and not a cause; and as we can not cure the consequences, it is necessary to remove the cause.** The causes are innumerable: in an individual case, from head to foot there are innumerable zones of irritation that produce asthma:-

We see it originate in the sensitive nerves of the skin (triggered by cold); in the sensitive nerves of the intestinal tract as in disorder of digestion; in the sensitive nerves of the mucous membranes of the respiratory tract (asthma from nasal polypi); and from pollen of certain grasses (hay asthma). People are allergic to different things which can cause asthmatic attack like: smoke, smell of perfumes,

flowers, soap, cosmetic, milk, cheese, eggs, fish, meat, animals, pets etc. The disease is also caused by anger, fright, grief or other mental emotions.

No worm, no germ, no bacteria or virus has been named so far, which causes asthma. Asthmatic attack can be temporarily relieved by various sedatives and antispasmodics. No curative treatment has ever been made so far, under the system of conventional treatment.

According to homeopathy, worms, bacteria or virus will not prosper in a perfectly healthy stomach, intestines or rectum. This can only thrive in unhealthy body. Germs only exist as a result of disease. They have never been known to exist without the disease having first existed. If we ignore the worm but select medicines to treat symptoms for the whole body (the homeopathic way), the patient will be restored to health. A physician has to know not only the constitutional peculiarities

## HUMAN HEALTH

(symptoms) of the patient but the direct operating causes of the paroxysm, its nature, individual symptoms, hours of aggravation and amelioration, and, in fact, the entire symptomatology of the patient, if the best result are to be hoped for. Patients who use inhaler (pump) in case of difficult breathing (caused by asthma), can be cured with homeopathic medicines.

take longer than in case of using homeopathy right from the beginning.

When children suffer from asthma, they are told by some physicians that the child will get cured as he grows older. Also when old persons suffer from shortness of breath they are very apt to say it is old age, and for this there is no remedy. But this is

Inhaler (Pump) used by Asthmatic patients

*No worm, no germ, no bacteria or virus has been named so far, which causes asthma. Asthmatic attack can be temporarily relieved by various sedatives and antispasmodics. No curative treatment has ever been made so far, under the system of conventional treatment*

Asthma and skin eruptions are found associated in natural disease. Most medicines which powerfully act on the skin will also causes an asthma. In early stage of the disease, the results are achieved more quickly, but unfortunately people turn to homeopathy late when everything else has failed! After years of treatment by other systems of medicine, an illness often becomes chronic. The treatment now naturally

not the case. There is no reason why children or old people should not be healthy, or become so, if properly treated with homeopathic medicines. These medicines are used in very diluted or triturated form hence they have no side-effects. Steroids, drug in crude form are not used in homeopathy.

Homeopathy is, indeed, the only available curative treatment for chronic diseases (equally effective in

acute diseases) like: Epilepsy; Numbness; Gouts; Arthritis; Asthma; Allergy; Mental problems (Anxiety, Depression, Fear, Forgetful memory); Anaemia; Acidity; Ulcer; Tuberculosis; Skin diseases (pimples /freckles on face); Grey /falling hair; Constipation; Diarrhoea; Blood-pressure; Sinus; Sexual problems (Men/Women); Impotency; Heart problems; Diabetes; Obesity; Cancer; Sexually transmitted diseases (gonorrhoea syphilis; herpes); problem of ear/nose/throat and eyes; Abuse of alcohol /narcotic drugs etc. LADIES PROBLEMS:- Infertility, irregular menstruation periods, continued heavy bleeding, vaginal discharges, lack of sexual desires, painful sex, dryness, itching, fibroids, cyst etc.
